To Whom It May Concern:

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies. I feel this is just another way of restricting our freedom of choice. I also feel the large pharmaceutical companies are making enough money - they don't need to push out the small pharmacies that work with their customers to give them more customized medications.

Sincerely,
